TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React, TypeScript, Redux, Recoil
- **Backend:** Node.js, Express.js, Microservices
- **Database:** MongoDB, MySQL (Basics)
- **Tools:** Git, GitHub, Jira, VS code

EXPERIENCE

My Apps Development

Dec 2023 – Dec 2024

Full Stack Developer – Mern Stack

Hyderabad, Telangana

- Developed and maintained web applications using React.js and Node.js.
- Improved performance and scalability, reducing API response time by approx. 25%.
- Collaborated with teams to design and implement new features.

CERTIFICATIONS

Certified from Samskruthi Foundation BE GOOD – DO GOOD activity.

Certified Training completion certificate for 'DATA SCIENCE' from skill vertex

PROJECTS

● Learning Management System

- MERN-based Learning Management System with React.js and Tailwind, featuring JWT authentication, course management (CRUD), content delivery (resources, quizzes, assignments), and an admin dashboard for managing users, courses, and content.

● MyStaycation - Farmhouse

- "My Staycation" is a comprehensive farmhouse website with user and vendor interfaces, featuring hotel listings with advanced filtering, booking management with payment integration, multi-page form submissions using Context API, reusable components, responsive design, and sweet alerts for data retrieval notifications.

● Secuber – Real estate Based Project

- "Secuber DBS and FSR" is a multi-user role-based access control (RBAC) system for granular user permissions
- Built secure RESTful APIs using Express.js, ensuring seamless integration with the frontend
- Utilized MongoDB Atlas for efficient cloud-based database management and scalability.

● Employee Management System:

- Developed an Employee Management System with role-based access control (RBAC), including project management, departments, tasks, teams, work reports, and leave management.

EDUCATION

Bachelor of Technology – Electronics and Communication Engineering

2022

Bhart Institute of Engineering and Technology– Hyderabad

Declaration
